

**Chalkwaves Plus** is the next generation of instructional programming ---“networked media”---media delivered over high-speed LANs, NOT the Internet.

This K-12 collection of approximately 13,000 educational video clips is educator-selected from the best videos 13 industry leading publishers have to offer.

VHS-quality video flows into the classroom ---through your local area network (LAN). No Internet congestion, and no unforeseen bandwidth expenses. Imagine, quality video running into your classrooms like tap water.

Just turn it on!

- Videos are segmented for seamless incorporation into lessons
- Immediate access with no visible buffering and no video/audio dropout
- Award winning professional development included in subscription price

**Visit [www.chalkwaves.org](http://www.chalkwaves.org) to arrange a free 6-week demonstration**

*Formally known as the MoKan Kids Network, **Chalkwaves** is a partnership among Missouri, Kansas and Illinois public broadcasters, schools and education service centers. Chalkwaves provides educational media libraries and related teacher development that result in increased student performance and reduced costs.*
